# Montana Medicaid Notice

## Physicians, Mid-Level Practitioners, Public Health Clinics, FQHCs, RHCs, Hospital Inpatient and Outpatient, and Indian Health Services Providers

---

### Vaccines for Children (VFC)

Effective October 18, 2007, the U.S. Food and Drug Administration approved a change in the age range for Menactra, (90734) a bacterial meningitis vaccine, to include children ages 2 to 10 years.

The vaccines provided by Vaccines for Children (VFC), a program for clients ages 0-18, as of September 21, 2007, and after are:

- 90633 - Hepatitis A vaccine, pediatric/adolescent dosage (2 dose schedule)
- 90645 - Hemophilus influenza b vaccine (Hib), HbOC conjugate (4 dose schedule)
- 90647 - Hemophilus influenza b vaccine (Hib), PRP-OMP conjugate (3 dose schedule)
- 90648 - Hemophilus influenza b vaccine (Hib), PRP-T conjugate (4 dose schedule)
- 90649 - Human papilloma virus (HPV), 3 dose schedule, for intramuscular use
- 90655 - Influenza virus vaccine, split virus, preservative free, for children 6-35 months
- 90656 - Influenza virus vaccine, split virus, preservative free, for use in individuals 3 years and above, for intramuscular use
- 90657 - Influenza virus vaccine, split virus, for children 6-35 months
- 90658 - Influenza virus vaccine, split virus, for individuals 3 years and above
- 90660 - Influenza virus vaccine, live, for intranasal use
- 90669 - Pneumococcal conjugate vaccine, polyvalent, for children under 5 years
- 90680 - Rotavirus vaccine, pentavalent, 3 dose schedule, live for oral use
- 90700 - Diphtheria, tetanus toxoids, and acellular pertussis vaccine (DTaP), for individuals younger than 7 years
- 90707 - Measles, mumps and rubella virus vaccine (MMR), live
- 90710 - Measles, mumps, rubella, and varicella vaccine (MMRV), live, for subcutaneous use
- 90713 - Poliovirus vaccine, inactivated (IPV)
- 90714 - Tetanus and diphtheria toxoids (Td), preservative free, for individuals 7 years or older
- 90715 - Tetanus, diphtheria toxoids and acellular pertussis vaccine (Tdap), for use in individuals 7 years old or older, for intramuscular use.
- 90716 - Varicella virus vaccine, live
- 90718 - Tetanus and diphtheria toxoids (Td), for individuals 7 years or older
- 90723 - Diphtheria, tetanus toxoids, acellular pertussis vaccine, Hepatitis B, and poliovirus vaccine, inactivated (DTap-HepB-IPV)
- 90732 - Pneumococcal polysaccharide vaccine, 23-valent, adult or immunosuppressed patient dosage, for individuals 2 years or older

90734 - Meningococcal conjugate vaccine, serogroups A, C, Y and W-135 (tetraivalent), for intramuscular use

90743 - Hepatitis B vaccine, adolescent (2 dose schedule)

90744 - Hepatitis B vaccine, pediatric/adolescent dosage (3 dose schedule)

90748 - Hepatitis B and Hemophilus influenza b vaccine (HepB-Hib)

**NOTE:** You may only bill for administration services if performed by, or under the direct supervision of, a reimbursable professional (i.e. physician, mid-level). All administration of VFC vaccines must be billed on a 1500 at no charge for the VFC supplied vaccine and the administration should have the appropriate modifier (SL) to be reimbursed for the federal mandated administration rate. (See fee schedule.)

<http://medicaidprovider.hhs.mt.gov/providerpages/provider/27.shtml#feeschedules>

**NOTE:** Human Papillomavirus (HPV/ Gardasil / 90649) is provided by (VFC) for clients ages 9 through age 18. Montana Medicaid will reimburse for the administration from age 9 and also for the vaccine from ages 19 to 27.

**NOTE:** If a significant separately identifiable Evaluation and Management service (e.g., office or other outpatient services, preventive medicine services) is performed, the appropriate E/M service code (with the appropriate modifier) should be reported in addition to the vaccine and toxoid administration codes.

**NOTE:** There can only be one initial administration code (90465, 90467, 90471, 90473). For each additional administration, you need to use an add-on code (90466, 90468, 90472, 90474). Be sure to use the appropriate modifier (SL) with each VFC administration.

**NOTE:** For Rural Health Clinics (RHCs) and Federally Qualified Health Centers (FQHCs) only: VFC vaccines can be administered at RHCs and FQHCs. However, they are not billable visits because a core provider is not required to administer the vaccine. VFC costs are calculated into your all-inclusive prospective payment rate.
